## Blackguards: Untold Legends Free Download [Torrent]

Download ->>> <http://bit.ly/2SK5Aru>

### About This Content

The life of a Blackguard: Learn how Takate became the enslaved gladiator and seize the day to take revenge on everyone responsible for the forest man's suffering.

Untold Legends, the first DLC of Daedalic Entertainment's successful turn-based strategy RPG Blackguards, continues the main story line with seven new exciting quests.

Fight against rebellious slaves, learn more about Takate's past and stop sinister magic rituals.

Please note: To play the DLC, the game must be patched to version 1.3.

### Key Features

- Seven new engaging quests revolving around Takate's past.
- Eleven brand new battle maps.
- Obliterate your foes with four new weapons.
- 25 new atmospheric tracks to complement the Blackguards Soundtrack.

Not too bad.

Nothing extraordinary, but it's good to have added content for such great game.. Unfold Legend will not show up in game. Check out other post, others having same issue - poorly executed. You should be able to see clear difference to world map or main screen options - but nothing. Played game all the way through and the extra content never shows up.. Its a must to get this dlc you get Forest warrior who very tantalizing. I kind wish they had expansion pack that had you kept your elven friend alive option. Takate is lot more helpful in fighting though.. Worthless dlc with no point thats a spear joke. I don't normally buy DLC but I bought this. It's only a dollar, although because I only played through with it and the DLC just merges seamlessly into the story I really don't know what is or isn't base. Either way, yes.. Takate is a powerful ally, but i had NO idea that this was payed dlc.. Unless its free, I cant , in good conscience, say its worth the money.. I guess by todays standards, its "cheap" for a dlc, but thats in comparison to the absolutely abysmal prices set for todays severely overpriced, garbage!

Hes badass, but buy if you really need the questline.. No, its really not all that.. I htink Takate is in the game regardless, and what they call "Quests" in this game is a joke.. You wouldnt even really know it wasnt there.. It does add some different enemies, during the quest, but other than all the poison, you wouldnt know it was missing if you didnt have it.. I would pass!. Worth the 5 bucks for the added content
